## 1 Ker Comp Practice 1c

1c For each occurrence of a variable in each of these terms, say whether it is free or bound:

- i  $\lambda xyz. xyz$   
 $x$  = bound  
 $y$  = bound  
 $z$  = bound
- ii  $\lambda xyz. yz(\lambda p. xyz)$   
 $(\lambda xyz. (yz)(\lambda p. (xy)z))$   
 $y$  = bound  
 $z$  = bound  
 $x$  = free  
 $y$  = free  
 $z$  = free
- iii  $\lambda xy. yz(\lambda z. zz)$   
 $y$  = bound  
 $z$  = free  
 $z$  = bound  
 $z$  = bound

## 2 Ker Exercises 1.3

1.3 List all the free variables in

- i  $\lambda xy. (\lambda u. uvxy)z$   
 $u$  = bound  
 $v$  = free  
 $x$  = free  
 $y$  = free  
 $z$  = free
- ii  $\lambda xy. z(\lambda u. uvxy)$   
 $z$  = free  
 $u$  = bound  
 $v$  = free  
 $x$  = free  
 $y$  = free
- iii  $\lambda wx. z(\lambda u. uvwx)$   
 $z$  = free  
 $u$  = bound  
 $v$  = free

$w = \text{free}$

$x = \text{free}$

iv  $\lambda vw.z(\lambda u.uvww)$

$z = \text{free}$

$u = \text{bound}$

$v = \text{free}$

$v = \text{free}$

$w = \text{free}$

v  $\lambda yx.z(\lambda u.uvyx)$

$z = \text{free}$

$u = \text{bound}$

$v = \text{free}$

$y = \text{free}$

$x = \text{free}$
